RangeFinder

Finding the right case... made easy

Extreme!

P3, the new name for the traditional quality level. A P3 rating means no compromise cases for the toughest working environments. Cases rated for P3 use are all hand-made using the finest leathers to give unparalleled durability & performance.

P3LF

Best quality firm leather case with fully removable leather flap, press-studded belt loop and twin D-rings

P3PV

Best quality firm leather case with fully removable PVC flap, press-studded belt loop and twin D-rings

P3CF

Best quality firm leather case with fully removable cord strap, press-studded belt loop and twin D-rings

HeavyDuty

P2, the workhorse of the range. Tough, firm leather cases built to survive the rigours of industrial environments.

Our new production facilities mean that P2 rated cases combine quality with **unbeatable prices**.

P2 cases suitable for use with IS radios available at an extra cost.

P2LF

Firm leather case with fixed leather flap, press-studded leather belt loop and twin D-rings

P2PV

Firm leather case with fixed PVC flap, press-studded leather belt loop and twin D-rings

P2RS

Firm leather case with fixed rubber T-strap, press-studded leather belt loop and twin D-rings

LightUsage

Our P1 rating applies to soft leather cases for stylish day-long comfort in environments such as offices, shops and warehouses. Their low price doesn't mean that their quality has been compromised.

P1SP

Soft leather case with rubber T-strap, press-studded leather belt loop and twin D-rings for GP range only

P1PO

Elastic sided case in water repellent medium-soft leather now with leather covered metal belt clip and twin D-rings

P1RG

Elastic sided case in nylon lined soft leather with leather covered metal belt clip and twin D-rings

How to order: To generate an order code, simply specify your radio's part number (eg **GP340**) and add the required case's part number (eg **P3PV**) to make, in this example, **GP340/P3PV**.

N.B. Add KF to the end of the order code to replace the belt attachment with a Klick Fast connector, at an extra cost. Please specify size of Belt Dock required.

P2HS

HeavyDuty

Holster style firm leather case, with rubber T-strap, press-studded leather belt loop and twin D-rings

Klick Fast connector

Combines quick release and click stop ratchet functions in one.

Klick Fast cases can be docked to belts (four sizes available, see right), store cupboards, personal lockers, car dashboards etc.

Klick Fast is protected by Design Right.
